

AMI Skills Cards
for the Asbestos
Management Industry

The AMI Skills Card Scheme is a nationally recognised construction skills card scheme carrying the CSCS logo.

By carrying the CSCS logo these cards provide a means to verify identity and that the asbestos removal operative/supervisor/manager or asbestos surveyor/analyst has the necessary qualifications, training and experience to carry out the type of work they need to on a construction site.

All cards issued use smart technology and contain an electronic chip, which can be used to check the identity of the card holder. Virtual smartcards can also be issued to applicants, at no additional cost, if the applicant provides a personal mobile number and/or email address on the application form. A virtual smartcard is a smartcard that is stored in an app on the card holders' smartphone or tablet (this can be used instead of or as well as a physical card).

AMI Skills Cards for Asbestos Removal Operatives, Supervisors and Managers

These cards are issued via the Asbestos Removal Contractors Association, ARCA.

Requirements for each card are listed on the next pages.

AMI Skills Cards for Asbestos Surveyors and Analysts

These cards are issued via the Asbestos Testing and Consultancy Association, ATaC

Requirements for each card are listed on the next pages.
